WORK EXPERIENCE

ThisFish

Software Engineer Intern

Vancouver, BC

Aug 2022 - Feb 2023

- Formulated Tally Teaser series with marketing leads, resulting in a 7% uptick in product awareness.
- Contributed to the successful release of software V2 by developing UX components, refactoring codebases, and fixing bugs.
- Debugged & tested code to ensure quality assurance, facilitated peer reviews and wrote unit/end-to-end tests improving accuracy.
- Assisted data science team with +5000 image annotations to improve computer vision accuracy; increasing efficiency by 10%.
- Established Confluence entries documenting new software applications with precise details.

Westbank Corp

Reception, Marketing Admin, Accounts

Vancouver, BC

Jul 2019 - Oct 2020

- Successfully facilitated contracts, POs & trackers with a +\$10M budget across global offices to ensure streamlined marketing operations.
- Acted effectively as liaison between Marketing, Accounting, and external parties for contract compliance & roll-outs.
- Expertly handled customer accounts for AP and property leasing across multiple projects, ensuring prompt and efficient response to all inquiries and proper routing to the relevant department.

PROJECT EXPERIENCE

PomoPets

- React single-page productivity app which integrates a Pomodoro timer and an interactive digital pet to increase user motivation and engagement.
- Built with: Node.js, Postgres, Prisma, Express, React, HTML, CSS/SCSS, Bootstrap

Scheduler

- React SPA for interview scheduling featuring unit, integration, & E2E testing with Cypress, Jest, and Storybook.
- Built with: React, Axios, JSX, SCSS

LEADERSHIP EXPERIENCE

Lighthouse Labs

Apprentice Mentor

Vancouver, BC

Apr 2022 - Jun 2023

- Worked with students 1:1 to debug their JavaScript code and guide them toward solutions
- Provided students with honest and empathetic personal support and encouragement
- Discuss array/object manipulation, unit testing, async programming, web servers & CRUD, CSS & FlexBox, and DOM manipulation with students and mentors.

Lighthouse Labs

Guest Speaker

Vancouver, BC

Jul 2023 - Present

- Share my experience as an alumna of the first 30-week Full-Stack web development cohort at Lighthouse Labs, from onboarding to post-graduation, with prospective students. Answer questions about scholarships, program schedule, curriculum, tests, projects, mentorship, and balancing work and life.
